

# ASSEMBLY INSTRUCTIONS

## MICA 3LT ARC FLOOR LAMP

4212BZ/4212GM

1. Carefully remove all parts from the box.

2. Cross base (A) on top of base (B) at the notches to create an X-shaped assembly.

3. Remove washer (D) and nut (E) from the bottom of the lamp column (C). Attach lamp column (C) to base (A) and (B), and secure with washer (D) and nut (E).

4. Stand the assembled arc base on a level surface.

5. Remove socket ring (H) from each socket on arm (G). Attach mica shade (F) to arc arm (G) on each socket, and secure with socket ring (H).

6. Firmly insert arc arm (G) to lamp column (C), and secure with set screw (I). The arms will fit snugly into the column for stable construction.

7. Firmly separate the arms apart to achieve the desired width for the lamp. Repeat step 5 for the other two (2) mica shades.

8. Insert bulbs (J) [not included]. We recommend a maximum of 23W LED type A bulb.

### IMPORTANT SAFETY INSTRUCTIONS

This lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.

### IMPORTANTES INSTRUCCIONES DE SEGURIDAD

Esta lámpara tiene un enchufe polarizado (una clavija es más ancha que la otra) como una característica de seguridad para reducir el riesgo de descarga eléctrica. Este enchufe encajará en una toma de corriente polarizada de una sola manera. Si el enchufe no encaja completamente en la toma de corriente, invierta el enchufe. Si aún no encaja, comuníquese con un electricista calificado. Nunca lo use con un cable de extensión a menos que el enchufe pueda insertarse completamente. No altere el enchufe.
