

ASSEMBLY INSTRUCTIONS

ROSWELL TORCHIERE

15010833MB

1. Carefully remove all lamp parts from the box and spread on a flat clean surface. Please see list of items included in box.
2. Insert tube (B) into the base assembly (A) and tighten to the base until secure.
3. Start by attaching tubes (C) to (B), as these will comprise the body of your torchiere. Each tube has one end threaded on the outside and the opposite end tapped on the inside. Connect each tube with the outside thread facing up.
4. Remove the socket ring (E) that is attached to your socket by unscrewing it.
5. Place the flat packed shade (G) on top of the socket with the white shade eyelets on the top facing upwards.
6. Place the harp (D) on top of the sock (C) with the black double washer facing down. Tuck the washer under the top shade ring.
7. Insert your socket ring and snug it down on the harp washer so you can align your harp with the shade eyelets.
8. Insert your bulb into the socket (Recommended: E26, A19, 23W LED, 2700K, 90+CRI, FLICKER-FREE, DIMMABLE)
9. Lift up the top of the shade by the shade washer and clip the shade eyelets onto the protrusions on the top of the harp.
10. Fluff your shade so that it is more symmetric.
11. Plug into a 110V outlet.
12. Enjoy the beautiful light.

IMPORTANT SAFETY INSTRUCTIONS

This lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.

For a step by step assembly video, please go to www.novaofcalifornia.com

IMPORTANTES INSTRUCCIONES DE SEGURIDAD

Esta lampara tiene un enchufe polarizado (una navaja es mas ancha que la otra) como forma de seguridad para reducir el riesgo de un shock electrico. Este enchufe polarizado entrara en una conexi3n solo de un lado. Si el enchufe no entra en la conexi3n trate al reverso. Si aun asi no entra, contacte a un electricista calificado. Nunca use una extension a menos que el enchufe pueda ser conectado completamente. No altere el enchufe.
